PROFESSIONAL SUMMARY

I am a motivated and adaptable individual with a mature and responsible approach to challenges. With strong English proficiency, business acumen, and excellent interpersonal skills, I am passionate about technology and development. As a recent graduate of RBK Rebootcamp as a full-stack developer, I am eager to launch my own projects and stay at the forefront of evolving technologies. I have hands-on experience in both front-end and back-end development, utilizing various frameworks and libraries. I thrive on tackling new challenges and finding innovative solutions.

EXPERIENCES PROFESSIONNELLES

Jul 2023 -Aug 2023

Rebootkamp (RBK)

THESIS Project - WAMIA SERVICE Mobile Applcation using (react native)

TASKS:

- React Native:** Proficient in integrating **cloudinary** for seamless access to the device's camera and gallery, enabling efficient media uploads and retrieval.
- Location Services:** Demonstrated ability to implement location functionality, utilizing the device's GPS capabilities to retrieve latitude and longitude coordinates for a given place or city, and skillfully displaying this data on interactive maps.
- Authentication:** Proficient in securing applications with **JWT** (JSON Web Tokens), ensuring robust user authentication and authorization. Accomplished in creating a seamless user experience for sign-up and login processes.
- Email Verification:** Proficient in incorporating email verification mechanisms, including code activation through **SendGrid** enhancing application security and user trust.
- Payment Integration:** Experienced in integrating **Stripe** for payment processing, enabling secure and convenient in-app purchases

Jun 2023

Rebootkamp (RBK)

Project - E-commerce Web Site using (next.js)

TASKS:

- Seller Management:**

Successfully designed and implemented a comprehensive seller management system, allowing each seller to have their own profile.

Developed features enabling sellers to add products utilizing the Cloudinary platform, update product details, and delete products as needed.

- Product Filtering:**

Created advanced product filtering functionality, allowing users to filter products by price range and product name, enhancing the overall user experience and making it easier for customers to find what they need.

- Payment Integration:**

Seamlessly integrated the FLOUCI payment method into the application, enabling secure and efficient payment processing for users, contributing to a seamless and secure e-commerce experience.
